#### Вступ

Знання іноземних мов як засобу соціального спілкування є невід'ємною частиною суспільного розвитку нашого часу. Тісні політичні, економічні, культурні та інші суспільні контакти з іншомовними країнами, а також процес інтеграції в Європу вимагають знання іноземних мов як обов'язкового компонента у галузі вищої освіти.

Мета іспиту з іноземної мови полягає у визначенні рівня володіння іноземною мовою.

Головним завданням іспиту  $\epsilon$  встановлення рівня знань з іноземної мови, набутих в обсязі програми вищого навчального закладу.

Претендент на навчання у магістратурі повинен:

- виявити відповідні вимовні навички і вміння при читанні;
- мати лексичний запас не менше 2-3 тис. лексичних одиниць;
- виявити знання специфіки лексичних засобів вираження змісту текстів, знання багатозначності службових і загальнонаукових слів, знання механізму словотвору, явища синонімії і антонімії, вжитку фразеологічних сполук, слів і словосполучень, знання і правильне читання скорочень, умовних позначень, формул, символів тощо;
- виявити практичні навички і вміння з граматики іноземної мови;
- орієнтуватися у явищах, типових для стилю наукового мовлення, таких як складні синтаксичні конструкції, звороти з безособовими дієслівними формами, пасивні конструкції, багатоелементні означення тошо.

# Критерії оцінки вступних фахових випробувань

Вступний іспит з іноземної мови полягає у виконанні лексико-граматичного тесту.

Лексико-граматичний тест з іноземної мови використовується як засіб перевірки рівня володіння іноземною мовою, як ефективний спосіб контролю повноти і точності розуміння. Для виконання тесту необхідні знання про особливості мови і стилю, теорії і практики граматичних явищ та лексичного складу іноземної мови, що вивчається.

Лексико-граматичний тест містить 42 питання, які спрямовані на те, щоб визначити рівень володіння основними граматичними правилами іноземної мови та достатнім лексичним матеріалом, який передбачений програмою підготовки бакалаврів. До кожного питання передбачається 4 варіанти відповіді, з яких здобувач вищої освіти повинен вибрати одну правильну. Максимальна кількість набраних балів — 200 (табл.1).

# ЗАГАЛЬНА ХАРАКТЕРИСТИКА СКЛАДОВИХ ТЕСТУ РОЗДІЛ І. ЧИТАННЯ

**Мета** - виявити рівень сформованості умінь кандидатів самостійно читати і розуміти автентичні тексти у визначений проміжок часу, а також через використання мови з'ясувати рівень володіння лексичним і граматичним матеріалом, який дає їм можливість вільно спілкуватись у типових ситуаціях іншомовної комунікативної взаємодії.

Завдання для визначення рівня сформованості іншомовної компетентності в читанні орієнтуються на різні стратегії: з розумінням основної інформації (ознайомлювальне читання), повної інформації (вивчальне читання) та пошук окремих фактів (вибіркове читання).

Джерелами для добору текстів слугують автентичні інформаційно-довідкові, рекламні та газетно-журнальні матеріали. Зміст текстів узгоджується з навчальною програмою для загальноосвітніх навчальних закладів (рівень B1) та для шкіл з поглибленим вивченням іноземних мов (рівень B2).

Тексти можуть містити візуальну інформацію до змісту, що допоможе кандидату визначити мету повідомлення. У більших за обсягом автентичних текстах, які можуть бути представлені у вигляді фрагментів із брошур, журнальних оголошень або інформації з веб-сторінок, запитання, спрямовані на пошук окремих фактів, повинні стосуватися інформації, з якою кандидати можуть зустрітись у реальних ситуаціях спілкування. Послідовність сформульованих запитань відповідає логіці появи цієї інформації в тексті.

Тексти для ознайомлювального читання можуть містити до 5 % незнайомих слів, а для вивчального та вибіркового читання - до 3 %, про значення яких можна здогадатись із контексту, за словотворчими елементами, за співзвучністю з рідною мовою (слова-інтернаціоналізми).

Загальний обсяг текстів складає 1600 (рівень В1) та 2100 слів (рівень В2).

# Вимоги до практичного володіння умінням читати для базового рівня (В1)

У тестах оцінюється рівень розуміння тексту, уміння кандидата виокремлювати ключову інформацію, узагальнювати зміст прочитаного, робити висновки, висловлювати власне ставлення до отриманої інформації.

#### Кандидат уміє

- читати (з повним розумінням) тексти, побудовані на знайомому мовному матеріалі;
- виокремлювати загальну інформацію та детальну інформацію із текстів, що використовуються в повсякденному спілкуванні;
- виділяти детальну інформацію про осіб, факти, події та інше;
- диференціювати основні факти і другорядну інформацію;
- розрізняти фактографічну інформацію та враження;

- Завдання множинного вибору до тексту (вибір однієї правильної відповіді із чотирьох).

• Завдання множинного вибору на заповнення пропусків у тексті (вибір однієї правильної відповіді із чотирьох запропонованих).

#### **Частина II. ВИКОРИСТАННЯ МОВИ**

**Мета** - визначити сформованість мовних умінь та навичок, а також якість засвоєння лексичного і граматичного матеріалу, що надасть можливість учням вільно спілкуватися.

#### Вимоги щодо практичного володіння лексичним та граматичним матеріалом

У тестах оцінюється сформованість мовних умінь та навичок, а також якість засвоєння лексичного і граматичного матеріалу у випускників загальноосвітніх навчальних закладів. Випускник володіє необхідним запасом словникового складу та граматичного матеріалу, вміє аналізувати і зіставляти інформацію, добирати синоніми, фразові дієслова, розуміє значення слів відповідно до контексту, розуміє логічні зв'язки між частинами тексту.

#### Типи текстів

Автентичні тексти (відповідно до рівнів B1 та B2 Загальноєвропейських рекомендацій з мовної освіти), невеликі за обсягом. Обсяг текстів складає 400 - 500 слів (рівень B1) та 500 - 550 слів (рівень B2).

Завдання завжди пов'язані із ситуаціями спілкування згідно з чинними навчальними програмами. У тестах використовуються зразки писемного мовлення Великої Британії. Тест складається з коротких текстів та завдань до них.

#### Форми завдань

- із вибором однієї правильної відповіді
- на заповнення пропусків у тексті.

#### РОЗДІЛ ІІ. ПИСЕМНЕ МОВЛЕННЯ

**Mera** - визначити рівень сформованості у кандидатів умінь, необхідних для виконання на письмі комунікативних завдань, які пов'язані з повсякденним життям.

Зміст завдань пов'язаний з інтересами та комунікативними потребами кандидатів та узгоджується зі шкільною програмою.

Завдання для писемного мовлення формулюються у вигляді мовленнєвих ситуацій, у змісті яких мають бути чітко визначені мета і об'єкт спілкування. Вибір комунікативної ситуації передбачає міжкультурне спілкування, а відтак зміст мовленнєвих ситуацій має включати соціокультурні особливості країни, мова якої вивчається, і України.

Обсяг письмового повідомлення не менше 100 слів (відповідно до рівня В1) та 150 слів (відповідно до рівня В2) Загальноєвропейських рекомендацій з мовної освіти.
